

AMENDMENTS TO THE CLAIMS

1. **(Currently amended)** Oral pharmaceutical composition containing at least two separate formulations:
 - a first formulation, which contains an active compound selected from 2-[4-(diphenylmethyl)-1-piperazinyl]-acetic acids and their amides having the general formula I

Formula I

wherein

R₁ is a -COOH group or a -CONH₂ group, and

X₁ and X₂, taken separately, each represent a hydrogen atom, a halogen atom, a straight-chain or branched C₁-C₄ alkoxy group or a trifluoromethyl group as well as their pharmaceutically acceptable salts, geometrical isomers, enantiomers, diastereomers and mixtures thereof, and which first formulation does not contain polyols having a molecular weight of less than 300 in a molar ratio between the polyol and active compound of formula I above 10; and

- a second formulation, which contains one or more solid polyol(s) with a molecular weight of less than 3000 and is free of ~~any drug~~ a compound of formula I.
2. **(Original)** A composition according to claim 1 wherein the first formulation does not contain polyols having a molecular weight of less than 950 in a molar ratio between polyol and active compound of formula I above 10, with the exception of lactose.
 3. **(Original)** A composition according to claim 1 wherein the first formulation does not contain polyols having a molecular weight of less than 300 in a molar ratio between polyol and active compound of formula I above 5.
 4. **(Cancelled)**
 5. **(Previously presented)** A composition according to claim 1 wherein the first formulation does not contain polyols having a molecular weight of less than 950 in a molar ratio between polyol and active compound of formula I above 5, with the exception of lactose.
 6. **(Previously presented)** A composition according to claim 1 wherein the first formulation does not contain polyols having a molecular weight of less than 950, with the exception of lactose.
 7. **(Previously presented)** A composition according to claim 1 wherein the formulations are prepared in the form of powders, granules, solutions or suspensions.
 8. **(Previously presented)** A composition according to claim 1 wherein the polyol in the second formulation is mannitol.

9. **(Previously presented)** A composition according to claim 1 wherein the polyol in the second formulation is a polysaccharide.
10. **(Previously presented)** A composition according to claim 1 wherein at least one of the formulations further contains an alkalinizing agent.
11. **(Previously presented)** A composition according to claim 10 wherein the alkalinizing agent is sodium citrate.
12. **(Previously presented)** A composition according to claim 1 wherein the first formulation further contains one or more excipients selected from cyclodextrins, colloidal anhydrous silica, microcrystalline cellulose, magnesium stearate, flavors or colorants.
13. **(Previously presented)** A composition according to claim 1 wherein the first formulation further contains non-polyol sweetening agents such as acesulfame K, aspartame, saccharine, saccharine sodium or cyclamate.
14. **(Previously presented)** A composition according to claim 1 wherein the active compound in the first formulation is cetirizine dihydrochloride, levocetirizine dihydrochloride or efletirizine dihydrochloride.
15. **(Previously presented)** A composition according to claim 1 wherein it is in the form of a chewing gum, tablet or effervescent tablet.
16. **(Original)** A composition according to claim 15 in the form of a multi-layer tablet wherein each of the layers is prepared from one of the formulations.
17. **(Original)** A composition according to claim 16 in the form of a multi-layer tablet wherein an inert layer separates the layers prepared from the two formulations.

18. **(Original)** A composition according to claim 15 wherein it is a tablet having an inner core prepared from one of the formulation and an outer shell prepared from the other formulation.
19. **(Original)** A composition according to claim 15 wherein it is a chewing gum that comprises
- a core made from the first formulation and additionally containing the gum base, and
 - a coating made from the second formulation.
20. **(Original)** A composition according to claim 15 wherein it is a chewing gum that comprises
- a core made from the second formulation and additionally containing the gum base, and
 - a coating made from the first formulation.
21. **(Previously presented)** A composition according to claim 1 wherein it is a dry syrup prepared from a mixture of two types of granules wherein one type of granules is made by compaction of the first formulation and the other type of granules is made by compaction of the second formulation.
22. **(Previously presented)** A method of preparing a composition according to claim 1 by separately preparing the first formulation, preparing the second formulation and combining the two formulations.
